Objective

Aspiring researcher seeking a PhD position in a dynamic and collaborative academic environment to advance my research expertise, contribute to impactful research, and develop innovative solutions to real-world challenges.

Research Interests

- Artificial Intelligence (AI)
- Vision-Language and Multimodal AI
- Computer Vision and Medical Imaging
- Machine Learning (ML)
- NLP, Large Language Models (LLMs) and AI Agents
- Quantum Machine Learning

Research Experience

- **Student Researcher** *Sept-2026 – Present*

  ELITE Research Lab LLC New York, USA

  - Conducted literature reviews to identify research gaps and emerging trends across AI
  - Explored Vision-Language Models, LLMs, and AI Agents to understand their capabilities and limitations
  - Studied Explainable AI, AI Safety, and confidence calibration techniques to improve model reliability
  - Designed, developed, and trained machine learning models to address identified research problems
  - Performed data analysis and experimentation to evaluate model performance and validate research results
  - Collaborated on research ideation, experiment design, and cross-functional data analysis with the team
  - Contributed to writing and preparing research manuscripts for academic publication and submission

Education

2026 – Professional Master's in Information Technology (IT) 3.35 out of 4.00
Jahangirnagar University

Thesis: License Plate Detection and Recognition Using Machine Learning Models.

2019 – Bachelor of Science (B.Sc) in Computer Science and Engineering (CSE) 2.74 out of 4.00
University of Science and Technology Chittagong (USTC)

Project: Digital Library Management System.

Publication

1. Ahnaf Tahmid Jamee, Md Abdullah, A.K.M. Sakibul Alam Adib, Mohammad Abdullah, **Nowshad Ahamed**, Tahsan Mahmood Tariq, MD. Tahmeed Kowsher Hameem, and Tariqul Islam (2025). **Real-Time Motorbike Helmet Detection System Using a Hybrid Deep Learning Model**. In *Proceedings of the International Conference on Intelligent Data Analysis and Applications (IDAA 2025)*, Advances in Intelligent Systems Research, pp. 581–592. Atlantis Press (Springer Nature). DOI: 10.2991/978-94-6239-664-7_40

Professional Experience

- **Country Director – IT Systems & Data Specialist** *Oct-2026 – Present*

  Staff America (Asia Office of Rahma Home Care Agency, Texas, USA) Sylhet, Bangladesh

  - Lead IT systems, healthcare technology, and digital operations for US-based home healthcare services
  - Oversee the development and management of a web-based Home Care Management System
  - Supervise IT infrastructure, Microsoft 365, cybersecurity, user access, and technical support
  - Oversee medical billing, Medicaid claims, RCM, reimbursement, and financial reconciliation
  - Supervise EVV, caregiver Clock-In/Out, and visit verification through HHAeXchange and Vesta EVV.
  - Oversee Availity, TMHP, HCPCS coding, eligibility, authorizations, claims, and documentation
  - Supervise data analytics, financial analysis, internal audits, KPI monitoring, and MIS reporting
  - Coordinate with US management on automation, compliance, technology, and operational improvements.
  - Ensure HIPAA compliance, data security, and protection of patient health information

- **Data Analyst** *June-2022 – Sep-2026*
  BMS Rope Company Limited Chattogram, Bangladesh
  - Analyzed and preprocessed large datasets using Python, SQL, and Excel
  - Performed exploratory data analysis (EDA) to identify trends and patterns
  - Developed interactive dashboards using Power BI and Tableau
  - Automated data processing and reporting workflows to improve efficiency
  - Collaborated with cross-functional teams to deliver data-driven insights

- **IT Support Engineer** *Nov-2019 – May-2022*
  BKY Jute Mills Limited Chattogram, Bangladesh
  - Provided technical support for enterprise IT systems and end users
  - Managed and maintained Windows, macOS, Linux, and network infrastructure
  - Diagnosed and resolved system, software, and network-related issues
  - Configured and administered enterprise applications and IT infrastructure
  - Implemented system improvements and automation to enhance operational efficiency

Technical Skills

- **Programming Languages:** Python, C, Java (Basic)
- **Artificial Intelligence & Machine Learning:** PyTorch, TensorFlow, Scikit-learn, OpenCV
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Power BI, Tableau, Microsoft Excel
- **Databases:** MySQL, Microsoft SQL Server
- **Development Tools:** Git, GitHub, Visual Studio Code, Jupyter Notebook, LaTeX
- **Web Technologies:** HTML, CSS, JavaScript (Basic)
- **Operating Systems:** Windows, Linux, macOS
- **Networking:** LAN/WAN, TCP/IP, Network Troubleshooting
- **Productivity Tools:** Microsoft Office, Google Workspace

Training

- **Cisco Certified Network Associate (CCNA)**
  New Horizon Computer Learning Centre, Chattogram, Bangladesh | 2021
- **Red Hat Certified Engineer (RHCE)**
  New Horizon Computer Learning Centre, Chattogram, Bangladesh | 2021

Certifications

- **Introduction to Java and Object-Oriented Programming**
  University of Pennsylvania (Coursera) | 2021

Extracurricular Activities & Leadership

- **Ambassador**, International Computer Science Competition (ICSC) | July 2026 – Present
- **Convener**, FSET Cultural and Sports Club, USTC | 2017 – 2019
- **Organizer**, Inter-faculty Sports Tournament, FSET, USTC | 2017 – 2019
- **Organizer**, Annual Study Tour | 2018 – 2019
